

## something.js

```
class Something {
```

```
  /*+ constructor + constructor.js +*/
```

```
  /*+ a long method + long_method.js +*/
```

```
  /*+ another method + another.js +*/
```

```
}
```

```
class Something {
```

```
  constructor () {
```

```
    ...constructor body...
```

```
  }
```

```
  long_method () {
```

```
    ...method body...
```

```
  }
```

```
  another_method () {
```

```
    ...method body...
```

```
  }
```

```
}
```

construtor.js

```
constructor () {
```

```
  ...constructor body...
```

```
}
```

long\_method.js

```
long_method () {
```

```
  ...method body...
```

```
}
```

another\_method.js

```
another_method () {
```

```
  ...method body...
```

```
}
```
